- Specialised training with Special Technical Investigation Branch-Alarm and Security Systems
- NSW Police Field Training Officer
- Electrical Mechanic (Electrical Contractor)
- Building Inspection Course Pre Purchase Inspections accredited through House Safe
- Certificate II in telecommunications
- Energy Auditing
- OH&S general Induction for Construction

"Fire scene examination is hard work, it can involve excavating a lot of debris which is hot and dirty work but worth it when you find the origin and cause of the fire."

ROLE

The examination of fire scenes and the determination of the cause and circumstances of the origin of the fire. This involves piecing together the series of events or circumstances that led to the ignition and development of the fire. Greg draws on his experience as a former NSW police officer and from the construction industry where he was an estimator, a project manager and an electrical contractor.

SPECIALISATION

As a qualified electrical contractor I also analyse equipment in our Electrical Examination room and provide an Electrical Expert Examination Report. I also provide advice on electrical issues to other members of the fire examination team.

JOINED GKAIG

September 2018

INVESTIGATIONS

With his extensive police background Greg has completed many hundreds of investigations and added another 30 or so in his first six months at GKAIG.

OUTSIDE OF WORK

Greg enjoys spending time with his family, particularly when they can all outdoors. He loves the beach lifestyle and since joining GKAIG has developed an interest in photography.
